# IT'S **NOT** **SOCIAL DISTANCING** **JUST** **PHYSICAL DISTANCING**

Organisasi Kesehatan Dunia (WHO) secara resmi mengganti penggunaan frasa “social distancing” menjadi “physical distancing” guna mencegah penyebaran Covid-19.

## BAGAIMANA PENERAPAN PHYSICAL DISTANCING

Melakukan interaksi sosial seperti biasa, namun tidak memerlukan tindakan fisik secara langsung, sehingga masih memungkinkan bersosial, seperti melalui media sosial

Menjaga jarak fisik minimal 1,5 meter dengan orang lain untuk mencegah penyebaran penyakit, tanpa terpisah secara sosial

Jika sakit dan terpaksa keluar ke tempat umum kenakanlah masker
